Association Inc.**

Non GMO Affidavit

This affidavit must be completed for all inputs or ingredients purchased or traded. It must be maintained with audit trail documentation and be available for the inspector to review at the time of inspection. Standards clearly state that genetically modified seeds and materials may not be used on certified farms. Please see NOP Standards 205.105 (e) and SOCA Standards 6.2.1.

I, _____ have _____ the following:
(seller or trader) (sold or traded)

NOTE *(List all items, including seed, seedlings, transplants, inoculants, fertility inputs, pest/disease control inputs, livestock supplements, livestock healthcare products, nonorganic agricultural ingredients, processing aids, non-agricultural ingredients, etc.)*

Type of Input/Ingredient	Brand Name	Source

(Please list any additional inputs/ingredients on back)

to _____
(buyer or trader).

I affirm that the inputs/ingredients listed above were not produced using genetic engineering techniques. I further affirm that they were not derived from **Genetically Modified Organisms**.

Signature of seller/trader

Company

Signature of buyer/trader

Date

This affidavit is a signed affirmation between the seller and the producer. It does not guarantee the purity of seed, input, or ingredient. The buyer/trader is encouraged to take every precaution before purchasing the seed, input, or ingredient to ensure its purity and are encouraged to buy only materials that have been tested. This will help protect the producer when the product is sold.

Certification for Farmers. Where it all starts.
